

## COMPANY OVERVIEW

### FUELING EXPLORATION SINCE AUGUST 1ST, 1986

Since its formation in 1986 by a group of seismic exploration experts, ECHO Geophysical Corporation has provided the seismic data and processing services that fuel the success of the oil and gas industry.

### Better Analysts, Better Communication, Better Processing Results

From the headquarter processing center in Denver and “satellite” offices in Houston, Texas, Garner, North Carolina, and Grand Lake, Colorado, ECHO provides a comprehensive suite of seismic data processing services. These include 2D and 3D Time and 2D Depth Data Processing.

Our staff of analysts reads like a virtual “Who’s Who” of seismic data processing. It is that high level of expertise, combined with ECHO’s “direct access” communications philosophy, that produces the best results in the industry. With ECHO, you get:

- Average Analyst Experience of Over 20 Years
- Worldwide Project Experience
- Flexible, Proprietary Software with Specialized Software Modules
- A Track Record of Superior, Guaranteed Results

Unlike some other companies, we want your explorationists to work DIRECTLY with our senior analysts to ensure the best possible results. It is this “direct access” communications philosophy that enables us to guarantee swift turnaround and excellent quality results on every project you entrust to ECHO.

### Data Pools/Proprietary Databases

Along the way, we have pioneered innovative seismic data pools and processing models that have revolutionized the exploration process, including:

- 1987 - Introduction of SeisMatch 2-D Data Pool
- 1995 - Joint Revenue Sharing Program with JN Oil & Gas, Inc.
- 1997 - Introduction of 3-D Match Data Pool
- 1998 - Introduction of the Unocal Mississippi Joint Revenue Sharing Program
- 2000 - Creation of the 3-D Gulf Coast Program
- 2000 - Joint Revenue Sharing Program with Chevron U.S.A.
- 2000 - Joint Revenue Sharing Program with Tom Brown, Inc.

### EXISTING PROPRIETARY DATA POOLS:

- 3-D Permian Basin Program
- 3-D and 2-D Mid-Continent Program
- 3-D Rocky Mountain Program
- 3-D and 2-D SeisMix California Program
- 3-D and 2-D Appalachian Program
- 2-D Rocky Mountain Depth Program
- 2-D Greater Permian Basin Program
- 2-D Nevada Basin & Range Program
- 2-D Gulf Coast Program
- 3-D State of Kansas Program
- 3-D Gulf Coast AVO Program
- 3-D and 2-D Maverick/Val Verde Basin Program
